Bihar School Examination Board, Patna
- Percentage : 78.8

Courses

Mastering C/C++ Training Program
Organized by Radharaman Group of institute and Coding Thinker

Project

1. **Employee Management System**
- Tech Stack: React.js, Tailwind CSS, Framer Motion, LocalStorage (for auth), JavaScript
- Description: A fully responsive and animated Employee Management System featuring role-based dashboards for Admin and Employee, with smooth transitions and interactions using Framer Motion. The system includes a secure Login page, dynamic routing, and personalized data views based on user roles.

2. **Project: Campaign Management Dashboard UI**
- Built a fully responsive dashboard using React.js and Tailwind CSS to monitor ad campaign performance with real-time updates. Implemented dynamic campaign cards displaying key metrics like status, budget, reach, and engagement. Integrated filters, date range pickers, and visualized data using Recharts/Chart.js for better analytics. Enhanced user experience with animated modals and transitions using Framer Motion.
